## 🚀 SUMMARY:

Curious and creative Frontend Developer (1st-year CS student at Scaler School of Technology, BITS Pilani) with a passion for turning ideas into clean, responsive web apps. Built and deployed full-stack projects with real users, APIs, and authentication. Always learning, always shipping.

---

## 💻 TECHNICAL SKILLS

- **Languages:** JavaScript, Python, C++, Java
  - **Frontend:** React, HTML5, CSS3, JS, Responsive Design
  - **Tools & Services:** Supabase, Git, API, GitHub
  - **Core CS:** Data Structures & Algorithms, OOPs, DBMS (basic)
  - **Currently Learning:** Tailwind CSS, Bootstrap, TypeScript, Flask, UI Animations
- 

## 🎓 EDUCATION

- **BSc in Computer Science** — *Scaler School of Technology (BITS Pilani)*  
*Bengaluru, Karnataka | 2024 – 2027*
  - **12th Grade – CBSE Board** — 87.6%  
*Kendriya Vidyalaya (Class Topper)*
  - **10th Grade – CBSE Board** — 92.6%  
*Kendriya Vidyalaya*
- 

## 🔧 PROJECTS

### 🥤 Vending Machine Simulator

Simulates a vending machine UI with dynamic product selection and mock payment functionality.

**Tech Stack:** HTML, CSS, JavaScript

🔗 [GitHub](#) • [Live Demo](#)

---

## **Random Stuff**

A community product-sharing platform with Firebase authentication. Authenticated users can add, edit, or delete their listings from a personalized dashboard.

**Tech Stack:** HTML, CSS, JavaScript, Supabase

 [GitHub](#) • [Live Demo](#)

---

## **Movie Hub**

Explore movies, save them to a personal watchlist, and get smart suggestions from an AI chatbot. Auth system integrated for syncing watchlist.

**Tech Stack:** React, Supabase, TMDB API, Gemini API

 [GitHub](#) • [Live Demo](#) (Does not work on JIO network )

---

## **PROBLEM SOLVING**

- 200+ problems solved on **LeetCode**
  - Strong understanding of core DSA topics and logic building
- 

## **SOFT SKILLS**

Problem Solving • Debugging • Collaboration • Fast Learning • Adaptability
